

Friday

Hello children and your grown-ups, we hope you are all well and staying safe at home. Below are your Nursery home learning tasks for today, including a special mission at the end for you to have a go at, if you want to. It's great to see that some of you have been sharing your work on Twitter so if you'd like to share any examples of your work for your teachers or friends to see you can do this on Twitter by tagging @devnursery. Have another great day!

Phonics

It's important we use our mouths, lips and tongue, to form our letters correctly. Children, I need you to fetch a mirror, big or small, for you to be able to see your own mouth and how you are moving it. Grown-ups I need you to face your child and show them how to form and say the letters s,a,t,p and i (next week's letter will be n, you can add this too if you like) After the adult says the sound let the child copy the sound while looking in the mirror to also copy the mouth movements. This exercise will help children who may find the sounds difficult to say, it is better to be able to see the sound being formed as well as hear the sound. Mrs Patton has done a video to support this on Twitter, @devnursery, go and take a look.

English

Here is a song you could sing to the tune of *The Wheels on the Bus*. There can be as many verses as you can think of for the many different creatures in the ocean/under the sea.

As well as the pictures here are a few of ideas to help you;

If it's easier, you can sing 'sea' instead of 'ocean'.

The dolphins in the ocean/sea go

The starfish in the ocean/sea go....

The eels in the ocean/sea go

Maths

You don't need to be able to print this picture to do the activity.

You can count the different shapes and draw that many, then colour each set of shapes their own colour.

Name _____

Color:

red

blue

green

orange

Count the shapes. Color the graph.

Special Mission

I know all of the children will be missing their daily yoga poses so here are some that you can do at home together.

Don't forget to include your breathing, in through the nose (smelling your strawberry) and out through the mouth (blowing your candle). Count to three breathing in and the same on the out breath, repeat 3 times before and after the yoga session.

This activity is great for calming and focusing the children. Do yoga and breathing exercises as often as you wish, at school we do it every day but it's entirely up to you.
