Today you are going to be identifying key features of an action scene.

The features of an action scene

			
1. Powerful verbs	2a. Fronted adverbials of <u>time</u>	2b. Fronted adverbials of <u>manner</u>	2c. Fronted adverbials of <u>place</u>

Then you are going to identify powerful verbs and fronted adverbials in a piece of writing:

Did you find them? 

On the banks of the River Nile, there **lay** a deadly alligator. Without a sound, he **crept** towards his prey. Stealthily, he **edged** towards the fish. Suddenly, the alligator **opened** his jaws and tried to **crunch** down on his prey. As quick as a flash, the fish **swerved** away from the alligator and **escaped**. Soon after, he **sank** down into the murky water.

1. Powerful verbs

Finally, you are going to do the same again, identifying powerful verbs and fronted adverbials. You are going to put them into a table.

Draw this table 

Powerful verbs	Fronted adverbials of time (when)	Fronted adverbials of manner (how)	Fronted adverbials of place (where)

Maths –

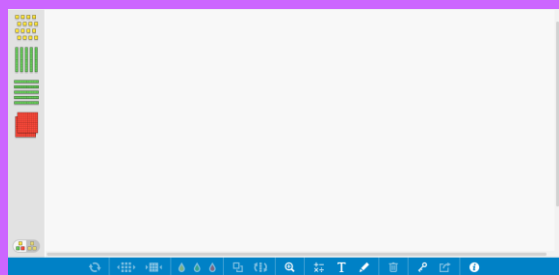

Can I subtract from a 2-digit number when an exchange is needed?

In the context of maths, exchanging means trading or swapping one value for an equivalent (equal) amount.

The exchange needs to be fair so the amounts need to be equal.

Click the picture of the ten stick to have a go playing with hundreds tens and ones. If you aren't able to use the internet then you can make bundles of ten using things from around the house, toothpicks, cotton buds, pencils. Then you can un-bundle them to see how they were made of ten ones.

Mr Palmer apologises for the cringe but watch this video to see how we can subtract with an exchange to help us.

<https://youtu.be/ujxg5XOB7G0> EQUIPMENT

Have a go at using jottings to complete these calculations.

Remember – if you don't have enough ones to subtract then exchange 1 ten for 10 ones.
CRUMBLE THAT 10!

31 – 17 =	24 – 18 =	42 – 27 =
43 – 29 =	92 – 48 =	63 – 46 =
76 – 58 =	55 – 27 =	36 – 17 =
